

MEMORIAL FLIGHT RALLY HANS GUTMANN

Long Range Event from 10 to 18 August 2013

The itinerary of the Memorial Flight Rally Hans Gutmann had to be slightly changed due to different technical difficulties such as customs, exaggerated landing fees, overfly permissions, no Avgas 100LL available, etc.

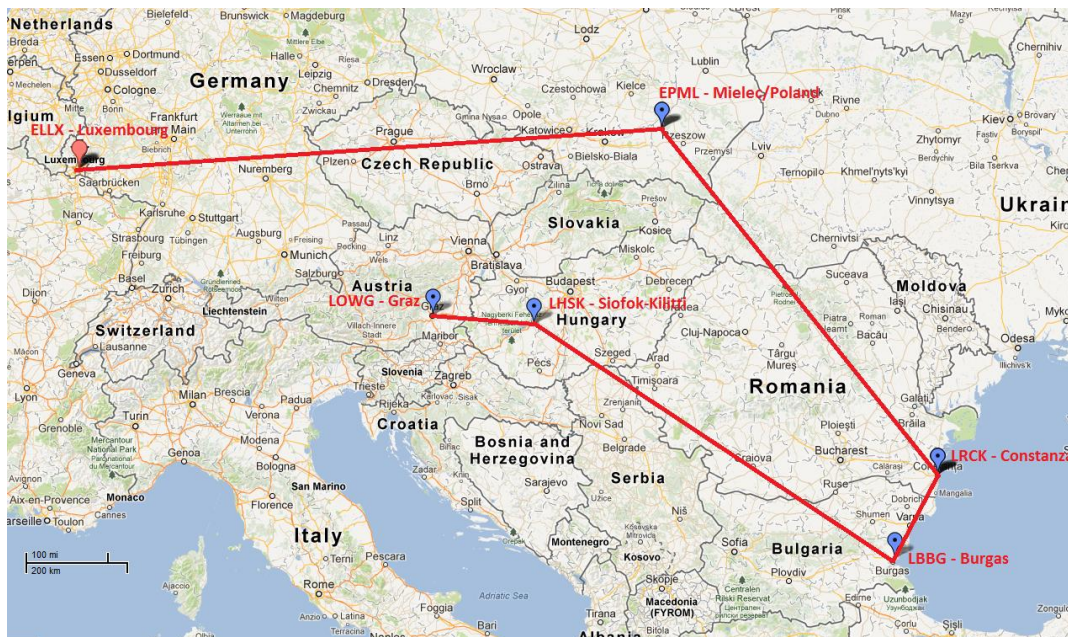

We will now fly shorter legs and have fewer stopovers. Overnight stays will always be for 2 nights in the same Hotel.

The main legs/stop overs are:

ELLX > Mielec EPML, Constanza LRCK, Burgas LBBG, Siofok-Kilitti LHSK and Graz LOWG

In principle you can join the flight from the start or join/return from your respective home base to one or more overnight destinations. At each main stopover, local transportation, tourism programs and hotel reservations will be secured, and we organize with the local Aero-Clubs or AOPAs sightseeing flights and entertainment.

Grateful if you could inform us (without obligation) of your interest to participate in the flight, mentioning which portion of the route you would like to fly and start/stop.

Please forward this letter to all Powered Flying and Microlight Clubs and pilot friends

Prices of the trip will be available from 15th May onwards. We will inform you thereafter of the final price and routing.
